SHADOW SUMMONER

Truth is my Compass,

*once you know, you cannot unknow.
once you have seen, you can never unsee.
once you have allowed yourself to feel,
you are freed from silence;
for the submergence of one's truth
only births havoc within the self.*

Executive Proclamation

*Vibration in formation

Sentience is legislation:

Quantum Jurisprudence

Epistemic Injustice

Detox the colonization
of your perceptual framework.

Hierarchies and binaries give
form to the imperial latticework.

*But the **heartbeat**

Roll Call

The parasite uses
pathology to dominate.

It is intent on disorienting
clarity to humiliate.

It masters mimicry and *requires*
proximity to infiltrate.

Offset

When you hate yourself,
you are a danger to everyone else.

Instead of integrating genetic
imposter syndrome, the recessives
concocted white supremacy and
eugenicism.

But had to socially and economically
engineer society to support this non-
scientific political delusion.

Even with the implementation
of harvested stem cells, a lie is a lie.

But why do we the people of Earth
have to bear the burden of truth,
while enabling the sadistic trickery?

Please recycle your white god.
The mold of improbable
incongruence stinks.

**“If the

With My Chest:

- 1.** Productivity is a slave metric for revenue. Transaction is the colonial brand to elicit consent as commerce while camouflaging extraction.
- 2.** Intimacy is an antigen for the patriotic pathogen.
- 3.** You're gonna have to hop off the debt-to-death train because the tracks are collective psychosis.
- 4.** Every time a white individual and/or institutionally credentialed person re-bundles nature's wisdom as novel tech, I barf in the multiverse.

5. Women aren't ripe until the age of 50. They may be sweet at 40 and clever at 30, but the soul becomes silk milk when the crow's feet are here to greet.

Industrial Professional Radicalism

What concessions are you willing to make to be the mascot for the subdivision of imperial diversion?

They'll give you confetti
and leave you hungry.

Before you know it,
you're anorexic.

But being vacant is en vogue.

Hunter's Moon

- 1.** The caste is collapsing. Build a raft because we sincrafting.
- 2.** Sad poetry is watching society eat the lie and mask psychic constipation while the soul is assaulted by malabsorption.
- 3.** Due to the hyper-proliferation of synthetic sweetness, folk get violent around honey because life force is the truest money.
- 4.** Folks come to New York to die, to make the gravesite of their soul look fly.
- 5.** We wear ideas, but sanction those who materialize ideation into incarnation.
- 6.** People choose offense over accountability when you unmask extraction and deny profitability.

Democracy

**When you water the soil with
blood, do not be grieved by
the doctrine of cannibals
when you lauded your nation
as a believer in God but never
asked which **god**.**

Munus

*Drag resonance to register,

Time on Target

Broken Glyphs

1. Phones are remote sedatives that assuage our instinctual imperatives.
2. Because NPCs are not self-governed, they bid for your attention like publicity.
3. An infected soul becomes a diseased elder.

Post-colonies are the Native

Trauma is weaponized and

Philanthropic Vampires

Hypothetically, Scientifically Speaking?

We don't know what we don't know. But we do know MKUltra was happening in the 1970s, without informed consent, right? And we know our government doesn't stop. Boundaries assume principles, this is a broken equation. The corporations that operate within the United States rebrand, rename, and rewrite reality, right? Therefore, is it possible that we are under a psychotronic fence? EMF and algorithmic manipulation? And would that hypothesis be supported by the fact that in the U.S. we are inundated with innumerable Endocrine disruptors and chemical poisons in our food

system that are outlawed in even “third world countries,” right?

And for some reason in this country, polypharmacy, to be on three plus drugs, is the norm at almost any age. It’s seemingly abnormal to be in your mid-30s and be of decent health. I learned this firsthand. And then how would you know that your biological and spiritual immune system is compromised if you don’t have a comparative baseline? How many Americans have ever traveled outside of the U.S., never mind have lived outside of the U.S. for 6 months or longer? If drugs pacify us and there are trace pharmaceuticals in our water supply, and then we are wrecked with cortisol due to late-stage capitalism —because you own nothing and think meritocracy is your friend, whilst the

infrastructure of this nation is neglected.

Therefore, between the cortisol interacting with environmental toxins, in addition to the food system, which is compounded by the probability that there is some level of mold ever present because, well, it's very likely and then, fourthly, having parasites, that our medical system is adamant about not testing. Even though health insurance is required—and if you don't have it, it's a crime. You also can't be homeless, but then you can't afford housing, so it's a crime too.

In any case, if the U.S. economy is being engineered for collapse because our currency was based on delusion and hypergamy, wouldn't it behoove us to consider this a pivot opportunity that allows us to return to a more

ecologically aligned way of being? Might this be an existential nudge to detox from not only the imperial propaganda that enlisted us into a form of apolitical planetary genocide, but also to re-engage with communities we have forsaken and most importantly, the possibility of soul retrieval because many people are spiritually displaced?

A broken cup that bore poison needn't be refilled. But let's keep drinking water.

Nonsentient Status Sculptors

Plantation Maintenance

The belief that authority is benevolent and omnipresent is the electric fence that keeps we the cattle conscripted into a psychically conditioned slavery.

Even when the jig is up, when the scam is judicially explicated, the Pavlovian dissociation is biologically conjoined.

Supportive Housing

When subjected to the carceral care of state actors through the proxy of non-governmental and non-profit organizations, one must understand that these entities are experts in facilitating reactive abuse.

Accountability is a myth,

Stoicism and negligible contact

Psychic Blackmail

Building an Embodied Consensus

How shall we discern the distinctions between what has been codified as legal versus illegal from what is ethical versus ontological treason?

This colonial conundrum is a foundation for the Second Amendment, albeit within a tainted context.

Fissures of Meritocracy

From white flight to the expat, to gentrification and the great migration, the racial caste maintains economic terrorism.

2. *Fertility bends into a bridge (perimenopause) that guides the procession of a divinatory coronation.*
3. Putrefied white dissociative guilt looks like martyrdom, but it's cannibalism with a bib.

5. In the Free Market, Blackness is adorned like the skin of a hunted animal.

6. *The economic ecology of narcissism, parasitism, and vampirism utilizes pathology as a mechanism to appraise the devaluation of one's placement within the social caste system.*

Sour Dish

When society grooms dysfunction and competition, the Social Determinants of Health are engineered by the spiritual compulsion to predate.

Harm is textured and polymorphic.

But the ahistorical revisionist narrative of Amerikan Exceptionalism presumes that an allergy to glyphosate, endocrine disruptors, and rewarded spiritual treason is the objective result of individual moral failings of laziness and inferiority that are then pathologized and stigmatized.

If the banquet of Imperial Gluttony is deemed poisonous by

Existential Siege

Womb primacy is an affront to annihilation because it is the portal from which sentience emanates.

The caste of white grandiosity and its trickle-down variants is an antagonist against collective sovereignty.

We must break ranks from ALL colonial tools, as Imperial Defectors who enact Jurisprudence by God's rules.

Oh, Happy Day:

In a society that has developed a systemic aversion to accountability, intimacy seems implausible in ways that create psychic repulsion.

An infantilized society is the playground of psychic predators who legislate helplessness and berate the victims of structurally engineered harm.
